

Product Specification

Manutan AX No.: A377257
Vendor Item No.: 3RS-N4YB-YB-P
Description: Poteau à sangle 4m jaune et noir
Overall size: Ø90.0 x H898mm
Color: Yellow & Black
Weight: 2600g

Key Parts Specification

Cassette
Feature: decelerating system as belt retracting, all-way(over 10 attach points,360°)
Material: ABS
Color: Black(Strongway's standard color)
Dimension: Ø63.5 x H745mm
Weight: 500g

Pole
Material: Steel
Color: Yellow and Black(Strongway's standard color)
Dimension: Ø63.5 x H745mm
Weight: 1800g
Thickness: 1.75mm
Finish: powder coating

Belt
Material: Polyester
Color: Yellow and Black(Strongway's standard color)
Dimension: 48 mm x 400cm
Thickness: 0.5mm +0.03

Key Factors

1.Aesthetic check

The product should be clean, external surface shall be free of sharp edges and angles, no visible fingerprints and scratches, no defects on parts and belt.

2.Assembly check

Belt can join to the cassette directly; the thread on sheet inside of pole joint to screw of A377256 is more than 3 loops.

3.Belt tensile test

Pull the tape out for a few times, Check the braking system of cassette working properly, no stop and jam; The retracted speed of belt from 2-5 seconds is accepted; No any sewing broke for belt end stitching.

4.Stability test

After assembled with base of A377256, shall withstand 30 degree incline with no tipping when in its intended use position.

5.Adhesion test for powder coating and screen printing

Use the tape of 3M 250 to test the adhesion on surface of powder coating directly, it is separated having a 90 degree with test surface, no peel off.

Use the tape of 3M 810 to test the adhesion on surface of screen printing directly, it is separated having a 90 degree with test surface, no peel off; moreover, Use the fingertip to draw lines on word directly, no peel off and visible trace.

Packing

1. Put 1pc pole into a poly bag.
2. Put 1pc pole into a inner box.
3. Put 10pcs pole into a master carton.

Product Specification

Manutan AX No.: A377256
Vendor Item No.: 3RS-N4YB-B
Description: Base Poteau à sangle 4m jaune et noir
Overall size: W360 x H81 mm
Color: Black
Weight: 9235g

Key Parts Specification

Base Cover
Material: Steel
Color: Black(Strongway's standard color)
Dimension: Ø360 x H73 mm
Weight: 580g
Finish: Powder coating

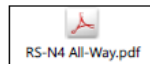

Counterweight
Material: PE+iron Pellet+Coagulant
Color: Gray (Strongway's standard color)
Dimension: Ø353 x H80mm
Weight: 8074g

Accessories
2pcs washer (material: steel)
2pcs screw M8x70L(material: alloy steel)
1pc wrench 6x80Lx80L (material: steel)

Assembly instruction

Key Factors

1.Aesthetic check
The product should be clean, be free of sharp edges and angles, no visible fingerprints and scratches ,no these defects on powder coating, such as peel off ,pin holes, sagging, large particles,yellowing,bubbling,uneven gloss and color.
2.Adhesion test for powder coating
Use the tape of 3M 250 to test the adhesion on surface of powder coating directly , it is separated having a 90 degree with test surface, no peel off.

Packing

1. Put 1pc base into a poly bag.
2. Put the iron base under the cover into a master carton.
